Chers membres,

Dans notre lettre d'information du 14 décembre, nous vous annonçons la tenue du séminaire gratuit du 19 décembre "Réponse de l'EMDR à 10 mois de pandémie" proposé par EMDR Italy.

Nous avons reçu les vidéos des présentations et les partageons ci-dessous avec vous.

Les vidéos sont uniquement en version anglaise. Il n'y a pas de version française.

EMDR response to 10 months of pandemic

On December 19th, EMDR Italy Association would like to take a moment to gather and reflect on what was done with EMDR in these 10 months of Covid 19.

The end of this special year seemed to be the best time for us to reflect and have a global perspective on the specialised psychological support carried out with EMDR in all fields. We would like to share this with all our colleagues from other countries.

We have reached almost 10'000 people in 10 months, working in partnership with hospitals, nursing homes, schools, municipalities and the National Health Service. We will present data showing the effects of our interventions, which will be published shortly.

We organized trainings and seminars during the year in these topics for our colleagues, so it is important to give a feedback on how the members of EMDR Italy have given life to all the tools and information provided.

The colleagues Micaela Barnato, Elisa Faretta, Giada Maslovaric, Caterina Paturzo, Biancaluna Renzoni and Stefania Sacchezin, who had the role of coordinating the approximately 250 interventions during the first and second wave, will take us on a journey through these months of pandemic.

We would like to share this with all our colleagues from other countries, providing a track with English translation. We will present and describe the lessons learned in our field, in a completely new context such as the one we have experienced during this year.

Programme

Chairman: Federico Luperi - Journalist ADNKronos

09:00 - Isabel Fernandez - Welcome - Opening of the seminar

09:20 - Stefania Sacchezin - Intervention during the first wave in Bergamo: cooperation with ATS (Local Health Authority)
